Circulation! Circulation!

The STANDARD has the largest circulation in the colony. We receive daily, and PAY for the latest telegraphic news. Advertisers and Subscribers will please take notice accordingly.

"Exclusive" to the Standard.

ATTEMPTED DESTRUCTION FROM THE AMERICAN GARRISON, SAN JUAN ISLAND—AN INDIVIDUAL KILLED, AND TWO WOUNDED.

On Sunday morning, we were informed of a shooting affray which occurred at San Juan Island on Tuesday last. It appears that a detachment of soldiers were sent in pursuit of the deserters. The detachment consisted of the Indian rancheria at San Juan Bay, where they saw a canoe with the men on board and three Indians, making towards the Vancouver Island shore. The weather being very rough, and they were compelled to put back. When Col. Bird saw they were forced to return, he and his men jumped themselves in the bush, until the runaways had reached the shore, where the detachment was waiting. The deserters hid in the bushes, and the 3 Indians who were in the canoe put off again as soon as they saw Col. Bird and his men. They were ordered to return, which they refused to do, and an order was given to fire. Three of the deserters were killed, one Indian instantly, and the other two severely. The two wounded men managed to "paddle their own canoe" to this place, which they reached a few days ago. The two wounded men, who are now lying in a precarious condition at the Spanish rancheria. The deserters, finding that it was useless for them to hide longer, and a chance being left to them, gave themselves up and were taken to the camp, where they will undergo court-martial.

THE POLITICAL CHAMBERLAIN.—Everybody has seen the chamberlain, but very few people have seen his country have ever seen one. In the days of Buffon and Goldsmith, naturalists were a quarry where to locate his family in the order of creation. It seemed doubtful whether he belonged to quadrupeds, fishes, birds, reptiles; but no one ever seemed to think that it was a relation of the crocodiles. The remarkable characteristics of the chamberlain are its size, its color, its shape, its position. The side that it presents to the sun will present other colors. The chamberlain will present different other colors. After swallowing an extra quantity of food, it will also change its color. The chamberlain is a certain species, many-headed, weather-cock, ever-changing class of politicians. Men who would show one side to the people, and another to the Government, and both quite distinct. Like their prototype the chamberlains, they are ever changing their political colors,—are always slippery, and never escape being thoroughly despised. A couple of our political chamberlains have been lithographed by some unknown artist, and a number of copies were circulated through the city on Saturday, and caused much amusement. The cartoon represented the political chamberlain as a man in a suit, that every one who saw it admitted it to be a capital illustration. As many of our readers may not have an opportunity to see "this fine art production," we will try and describe it. It is a political chamberlain, standing outside of a "sensational" showman, calls public attention. There, in a cage, on the trunk of a tree, is the "political chamberlain." It is a lion, the head of Mr. Robson, editor of the Colonist, attached to the body of a chamberlain. Under his "paws" is a copy of the Colonist, indicating to the public the chamberlain-like principles enshrined in that paper. But just below him, at the slippery foot of the cage, is a money bag, marked "Cash." This is what they give him to change color. "Cash!" When one calls to mind the famous Westminster speech of the "political chamberlain," his attitude towards the Nansimo election, and the thousand-and-one political phases in which Mr. Robson has appeared, one cannot help agreeing with yesterday's Colonist, that "the artist certainly deserves the fidelity with which he has produced the likeness," of its editor and proprietor. If any constituency requires "a political chamberlain," they now know where to find one. We warrant the animal genuine.

FENCE DISTRICT.—The Government Gazette of Saturday, contains the following proclamation by the Governor:

Whereas more than two-thirds in number of the resident land-owners or occupiers in and about Nansimo, Cedar, Cranberry, Mountain and Douglas Districts, have applied under the "Fence Ordinance, 1869," for the erection of land hereinafter more particularly described shall be erected into a Fence District.

Now, therefore, I, the said Governor, under and by virtue of all authority me in that behalf lawfully given, do hereby declare and proclaim that all that parcel or district of land comprised within the following Districts, known as the Official Map of the Colony of Vancouver Island, prior to union, as the Nansimo, Cedar, Cranberry, Mountain, and Douglas Districts respectively, shall be and is hereby created into a Fence District, by and with the name of "The Nansimo Fence District," with and subject to all and singular the provisions and conditions of the Fence Ordinance, 1869," in that behalf provided.

Not this thing.—In political matters, where a difference of opinion exists, a newspaper may possibly be excusable—we don't say it is—for depreciating a political opponent. But when a public journal is content to throw out innuendoes, depreciatory of a person's private business, simply because it doesn't get a few dollars for advertising, such a concern is not only inexcusable, but it is highly censurable. We are led to make these remarks in consequence of the unusual licence taken by the Colonist in noticing the late sale of real estate by Messrs. Davies & Co. We must say, that such attempts at blackmailing are not the thing.

A CHICKEN THIEF.—About two o'clock on Sunday morning, Sergeant McMillan arrested a Chinaman on Cormorant street, with eleven chickens in his possession which he could not account for. He was taken to the "lockup" and locked up. It has been found out since his arrest that seven of the chickens are the property of the Hon. Collector Customs, Mr. Hanley. The prisoner will come up before the Police Court this morning, and the court will receive his just reward for such a feat.

The Legislative Council will meet at 11 o'clock, this morning.

NOTICE TO MARINERS.—The Gazette of Saturday contains the following notification to mariners.

Flashlight on Point Reyes, California.—The United States Government has given notice, that from the 1st day of December, 1870, a light will be exhibited from a light-house recently erected on Point Reyes, California.

The light is a flashing white light, showing a flash every five seconds, elevated 271 feet above high water, and in clear weather should be seen from a distance of 23 miles. The illuminating apparatus is electric or by lenses, of the first order.

The tower, 38 feet high, is painted white, and situated on the steep slope of the bluff point about 200 yards from the extremity. Position, 37° 55' 40" N., long. 123° 0' 15" W. from Greenwich.

THE BEATTY TROUPE.—This troupe of talented artists will give their second performance this evening, at the Theatre Royal, commencing at 8 o'clock. The performance will commence with the little drama entitled, "One Touch of Nature," in which Mrs. Beatty, Little May Wells, and Messrs. Beatty, Ward, Melville and Earle will appear.

The evening's entertainment will conclude with the laughable musical, petite comedietta entitled, "The Ward's Strategem," in which Mrs. Beatty will sing several comic songs. Mr. Mart Taylor, on Saturday evening, announced his intention of assisting in the performance this evening, at the Theatre.

CIRCULATION.—The Colonist seems to have taken to whistling to keep its courage up; for no later than yesterday it tried to squeeze out, among other words, that it had "the largest circulation." Now, it knows just as well as we do that the STANDARD is the largest paper, has the best advertising patronage, and has the largest circulation in the colony. But inasmuch as it was so blind as not to recognize its own likeness in "the Political Chamberlain" and "the Sensational Showman," it is possible that it may have meant the STANDARD, instead of itself.

THE TAYLOR FAMILY.—On Saturday evening, the Taylor family gave a performance at the Alhambra, to a crowded house. Those who witnessed the performance given by Messrs. Taylor & Barney, on Saturday evening, speak of it as being most amusing. A local song created a great deal of merriment amongst the audience, the "hits," in some instances, being very good. The Taylor family will give another performance, and the last, before proceeding to the Malinal.

ACCIDENT.—On Saturday evening, a Chinaman was driving his horse and wagon to town, when the animal became frightened and ran off, throwing the driver out and fracturing a leg. A colored man who afterwards attempted to drive the horse on behalf of the suffering Celestial, had a narrow escape; the horse bolted and ran off, upsetting Chinaman, driver and all into a ravine. No necks were broken, however.

LAKE DISTRICT COURT.—K. McKenzie, Esq., J. P., held a Court on Saturday, in the Lake District Schoolhouse. Four defaulters were summoned for school taxes, and ordered to pay the respective amounts for which they were sued. Several summonses will be issued against other parties in the district, this week, unless they pay. Another Court will be held on Saturday next, at the same place.

ATTEMPTED BURGLARY.—About two o'clock, Saturday morning, the store of Mr. Child's, corner of Pandora and Broad streets, was attempted to be entered by burglars from the rear of the premises. It appears they got into the store through the back door and were trying to force the back door open when Mr. Child's was awake from his slumbers. This is the sixth time within the last few months that burglars have attempted to enter the store.

"NOT GUILTY."—The jury—in the charge of murder against Dennis Galt, reported in our telegraphic dispatches a few days since—handed in "not guilty." The audience and crowd outside the court-house joined in a tumult of cheers. After the discharge of the prisoner, he was followed by the multitude, who continued to cheer and to offer their congratulations.

HOME MANUFACTURE.—A superb set of buggy harness, recently manufactured by Messrs. Gibbon & Mann, saddlers, Port street, is most creditable to the makers, as a sample of workmanship, and would suggest the necessity of importing so largely, when so many of our various manufactures can be had in the various workshops of this city.

SOLD OUT.—The California Steam Navigation Company's entire property is reported sold, to the California Pacific, or Valpo, Railroad Company. The Company will put on night boats between San Francisco and Sacramento, and will also make numerous other arrangements.

REMANDED.—A man named Sellick, was brought up on Monday before the Police Court yesterday morning, charged with assisting two marines belonging to H. M. S. Scylla to desert. The prisoner was remanded until Wednesday for further evidence.

FROM THE WEST COAST.—The schooner Spruce, Capt. McKay, arrived from the West Coast on Saturday, with a cargo of furs and oil, which she discharged at the H. B. Co.'s warehouse, Equatorial, before coming into the harbor.

NOT CORRECT.—The Colonist reported on Saturday that Mr. Lumley Franklin purchased the Cameron mill property. This is not so; for it was purchased by the mortgagee, Mr. Anstruther, as stated by us on Saturday.

FOR BURNARD ISLET.—The steamer Grappler arrived yesterday morning, from Burnard Islet, with Capt. Thain as passenger. She left at 1 o'clock for the Hastings Mill, with the ship Columbia in tow.

CARRIAGE PURCHASE.—During the siege of Paris, three carriage pigeons were tossed up outside Paris on a Sunday evening, at eight o'clock, and at two o'clock on Monday morning the birds had arrived in London.

SKREENA RIVER.—As will be seen by a notice elsewhere, if sufficient inducements offer, the Hudson Bay Company are prepared to place the steamer Enterprise on the berth for the Skeena.

NEW FIRM.—Mr. Arthur Keast, has been admitted a partner into the firm of Stuart & Co., brewers. The firm will in future be Stuart & Keast.

LEACH RIVER.—A party of experienced miners are going on a prospecting expedition next week, in the neighborhood of Leach River.

APPOINTMENT.—Saturday's Government Gazette contains the appointment of Edward Dewdney, Esq., to be a Justice of the Peace for the Colony of British Columbia.

By Electric Telegraph.

SPECIAL TO THE DAILY STANDARD.

SATURDAY'S DISPATCHES.

VERMILLES, March 23.—Bismarck claims the restoration within twenty-four hours of the telegraph leading to Paris, which has been destroyed, or Bismarck will be treated as an enemy.

Yates states, in the Assembly, that he had replied to Bismarck that the restoration in Paris was a surprise to the Government, but that it would be repeated.

Several Paris newspapers have removed to Versailles.

The insurgents have obtained from the Bank of France a million francs against the deposit of a formal treasury bond. A requisition was made by them on the Rothschilds and was refused by the latter.

DRESDEN, March 22.—The French Government has not yet appointed any commissioners to receive the prisoners returning from Germany.

VERMILLES, March 23.—President Thiers has sent another circular to the Prefect of the Departments, informing them that advice has been received by the Government from all the provinces reasserting them that the attempt to be made to create disorders has failed. In Paris the citizens are organizing for the suppression of the sedition.

A proclamation is about to be issued warning the insurgents to lay down their arms.

New Prefects have been appointed for 18 Departments.

ROME, March 23.—Clerical journals here report that communications have passed between the Cardinals of Vienna and Florence with reference to the status of the Pope.

BERLIN, March 22.—Bismarck has received the rank of Prince. Moltke is invested with the Grand order of the Iron Cross.

LOUVEAU, March 23.—The French Assembly, yesterday, the Government proposed a law for the organization of volunteers which was adopted. Every department is to send to Versailles a battalion immediately.

A proposition for a committee of fifteen to proceed to Paris to assist in the restoration of order was favorably considered.

LOUVEAU, March 23.—Schlotheim, the Prussian Commander in chief, has departed from Paris, and the German troops occupy the northern and eastern forts and maintain a friendly attitude. If the terms of preliminaries are overstepped Paris will be treated as an enemy.

The official journal threatens that writers attacking the insurgents shall be brought before the Central Committee.

It is rumored that the troops accidentally fired into the train at Versailles, whereby 24 were killed and 72 wounded.

LOUVEAU, March 24.—The Times' special says the people are flying from Paris terror-stricken.

The rebels are preparing for a desperate attack on the city, and are endeavoring to recover the lost ground.

It is rumored that disturbances have occurred at Lyons, and another dispatch says that Lyons has proclaimed for a Commune and raised the red flag.

A dispatch from Versailles says that the civic guard has taken possession of the telegraph line.

PARIS, March 24.—Reaction in favor of the Empire gains ground.

LOUVEAU, March 23.—Dispatches from Berlin state that if the Parisians approach the encampment the Germans will reopen fire upon the city.

The Mayor of Lille is raising volunteers to march on Paris.

BUCHAREST, March 23.—While the Germans here were engaged in celebrating the birthday of the Emperor they were attacked by a mob and several were killed.

The German Consul is endeavoring to get the Emperor's troops to march on Paris.

LOUVEAU, March 23.—In the House of Lords to-day, a discussion arose on the policy of the British Government towards the army which was destroyed by Paris.

Granville stated that British troops were stationed at each of the Chinese ports in case of outrage.

LOUVEAU, March 23.—The Daily News speaks of the Minister of Agriculture as a remnant of the Empire, and says he is a remnant of the Empire.

The Government will co-operate with the Germans. It is reported that Paris is trying to oust Thiers from the office of Chief Executive.

GENS, Lecompote and Thomas were buried in a ditch.

Rue de la Paix is a pool of blood, and no man is safe in the city.

A statement comes from a reliable source that orders have been issued to stop the return home of French prisoners for the present.

PARIS, March 23.—The Debate is bold, and has published an article strongly supporting the National Government.

Sayset was present with the friends of the Government, but was not allowed to speak. Some of the insurgents fired on each other and several were wounded.

LOUVEAU, March 24.—A special says that the Montmartre stopped the train conveying prisoners to Versailles and released them.

The 6th regiment resisted the seductions of the insurgents and arrived at Versailles, being enthusiastically received and the officers promoted.

LOUVEAU, March 23.—It is announced that the Reds of Lyons are only awaiting the arrival of a delegation from Paris to form a Central Committee on the same plan as that at present operating in Paris.

It is reported that M. Gambetta now commands the Montmartre insurgents.

PARIS, March 23.—Evening. This morning a number of unarmed persons reached the Rue de la Paix.

The demonstrators thereupon unfurled the colors of the National Guard but the sentries threatened to bayonet the color bearers, and the crowd was obliged to retire.

Baron Haussmann then seized the flag and exhorted the crowd to advance against the illegal force that was occupying the place.

At least 30 persons were killed and wounded. Paris journals say Bismarck has informed Thiers that the Germans will occupy Paris on Sunday, unless by that time Thiers is master of the situation.

CHINA.—The Foreign office received a telegram from Peking, dated the 6th inst., that all was quiet in the north of China.

CALIFORNIA.—San Francisco, March 24.—The wife of J. E. Leonard of California, was terribly burnt some time this morning; she was found lying some distance from the house in an insupportable condition, almost destitute of consciousness, while the person charged with her care was asleep.

Although all alive, no hopes of recovery are entertained.

SAN FRANCISCO, March 24.—Cleared, bark J. A. Sever, Potomac; arrived, bark Ambury, Beltingham Bay.

Nathan's Bill.—There are some people who will ride their hobby to the death. Mr. Nathan's bill will be one of them; he seems to have taken the Victoria Common School teachers in an especial manner under his protecting wing, and has gone so far as to give notice of a bill to authorize the City Council to pay them certain questionable arrears out of the City taxes, which taxes are intended for a very different purpose.

I myself, in common with many others, sincerely hope such an unprecedented Bill will be thrown out.

All we say is, if Mr. Nathan has not been prevented by the Mayor and Council to introduce this measure into the Legislature, his conduct to my mind is a piece of gross impudence.

A CITY TAX-PAYER.

THE ALHAMBRA.—The Taylor Family, butorists, etc., will appear at the Alhambra on Saturday evening next.

Shellsberger moved the appointment of a special committee of nine to whom to refer the President's message, saying: "I was yesterday in the consideration of the subject."

A lively discussion followed, the House adopting Shellsberger's resolution.

England and her Ocean Empire.

Let us now take a hasty glance at the present state of our empire, so far as the character of the ships comprised in it is concerned. Our navy has two great services to perform—some service for the defence of the British Islands; and foreign service for the protection of our colonies, dependencies, and commerce, from the attacks of an enemy's fleet.

How are these services now provided for? For the latter—service abroad—we have sea-going iron-clads, equipped for sailing as well as steaming, and capable of forming squadrons superior in force to any that could be brought to meet them; swift unarmoured cruisers, capable of playing the part of Alabama, or of protecting our mercantile marine from similar dangers; the remnants of the wooden steam-fleet, of which the frigates are especially useful, as the recent voyage of the "Flying Squadron" amply proves; and, lastly, the small fry of corvettes, sloops, gun vessels, &c., which do such useful and economical service on distant stations in time of peace, and constitute no mean protection to our commerce against lightly-armed cruisers in time of war.

In each and all classes of ship, we can fairly claim superiority to all rivals. The French rank next to us in the possession of rigged iron-clad ships, but they have of late years given up the competition to a very great extent. In the matter of unarmoured cruisers, the American navy probably stands nearest our own; but it has no iron-clad sailing ships, and consequently could not compete with our fleet—a fact which the highest American authorities fully admit, and greatly deplore. We borrowed from them the idea of building very fast cruises, carrying heavy guns but having no armour—Alabama of the future, as they have been termed; but whereas their vessels proved failures, ours have proved most successful, and they are fast to admit themselves beaten at their own game. Long may it be before British and American seamen meet in battle, but if the day should come we need not fear the result, so long as the relative forces of the two navies remain unchanged.

Blockading the American ports with our armoured fleet, and sweeping the sea with our swift cruisers, it would be in our power to cripple American commerce to a very great extent, and to protect our own from serious reprisals. May such a necessity never arise! It may not be out of place to refer, in passing, to a matter which attracted considerable attention a few weeks ago, when the Eastern question was before the public. We were threatened, in case of a war with Russia, with a swarm of privateers, which were to be equipped in American ports and to prey on British commerce. Whether such a danger will, have to be run or not it is, of course, impossible to say; but one thing seems certain, viz., that while no nation would have more to fear from this mode of attack, our account of our world embracing commerce, none would have anything like the resources to meet the danger that we possess.

Our numerous unarmoured warships would be most dangerous to any privateers of the kind; and we could, in case of need, arm and equip a large number of our splendid mail steamers as rival cruisers, which our foes would find it difficult to escape and be no less pleasant to encounter. That we should suffer some loss is certain; that we should suffer anything like as much as many persons would have us believe is, we venture to think, very doubtful. At the same time the possibility of such losses renders it clear that, while bending our greatest efforts towards the production of armoured ships, we should not neglect the efficiency of our unarmoured cruisers.

DR. CHING FUN-A CARD-MAX
STANDARD:—Through the medium of this paper I want to state the very great good that has done me by Dr. Ching Fun of this city. next door to

Lee & Co. For 24 years I suffered with neuralgia of the brain, which killed the skull of three first-class American physicians. Letterly bromide attacks, righting him, and my eyes became severely inflamed. A pairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot do the eminent Chinese gentleman's praises too loudly than tell my countrymen similarly affected my tale and find relief. Sincerely,
JOHN HUNTON, of Kentucky, U. S.
